

Bretford PowerSync Cart™ for iPod TL357LL/B

The Bretford PowerSync Cart™ provides an ideal platform for educational institutions, museums, and other organizations to distribute and update information using iPod. This innovative solution will organize, update, charge, and transport up to 40 iPod players and keep everything secure behind a roll-top door.

Supports iPod nano, classic and touch with dock connector

Use iTunes to sync 20 iPod players at the same time!

Organize, store and charge up to 40 iPod players

FEATURES:

- Stores and charges up to 40 iPod players with dock connector in individual compartments with high density padding.
- LED indicators let you know the charging status of each iPod.
 - Orange = charging
 - Green = charged
- Syncs 20 iPod players at the same time using Apple iTunes software.
- Requires a Mac running OS X 10.4 or higher and iTunes 7.1 or higher.
- Integrated cord management hides USB cables and prevents tangling.
- Lower cabinet for the storage of four notebook computers and iPod accessories like headphones and microphones.
- Top shelf has front and rear rails and provides space for a notebook computer and other equipment.
- Roll-top door secures with a user-programmable combination lock, lock included, for improved asset management.
- Built in electrical component has an on/off switch on the back panel and is UL listed, overload protected, and features a 10 foot power cord for use anywhere in the room. Back panel includes a cord winder.
- Perforated side panels ventilate equipment when charging and helps cool when the door is closed.
- Large casters and a rear handle deliver a smooth ride indoors and out. Front casters feature locking brakes.
